

Rosin — *'It's all about the music'* —

Feature:

Larsen Rosins for Violin, Viola & Cello

The Perfect Accompaniment

Created by Larsen Strings, our rosins are designed to create a refined and delicate friction. Our unique rosin recipes ideally complement our string range.

For Violin, Viola and Cello: Our in-house blends of choice raw materials have been specifically developed to match the requirements of the individual instrument to optimise adhesion, whilst minimising unnecessary noise, creating a seamless blend between bow and strings.

Larsen Strings Rosin is available in two recipe variants for violin, viola and cello. Rich Amber Original and as Larsen Red. We recommend that our rosins are not used in combination with other brands.

Please Note: Rosin is a natural material. Our rosin, in common with most naturally derived non-synthetic bowed instrument rosins, may cause an allergic reaction with some players.

Aiming for sustainable solutions: at Larsen Strings the aim is to progressively work toward sustainable solutions in the way that we operate as a company. Some steps are small and some, such as our decision to upgrade to a CO₂ neutral electricity plan are larger steps towards our destination.
